PEABODY NORMAL INSTITUTE.—The exercises this morning were conducted as usual, the reading of "Snow Bound" being continued by Prof. McCleary, and Prof. Little concluding his "Chalk Talk" or instruction in free hand drawing. At 11:30 Prof. Hall gave his usual lecture on Chaucer's "Parlement of Foules," as illustrative of English grammatical forms. At 12, Miss Chapman gave her drill in calligraphy and Prof. McCleary his instruction in primary arithmetic, and the exercises closed with the usual instruction in music by the latter. Tomorrow, at 9:15, the teachers will take the steamer Excelsior for Colonial Beach, at the invitation of Manager Ridley, of the Potomac Steamboat Company.

A nice excursion in two omnibuses and a dayton was made to Arlington yesterday by some thirty or forty ladies and gentlemen, and this afternoon there has been another to Mt. Vernon. Last night a very enjoyable hop was given by the young gentlemen to the young ladies at Peabody Hall and there will be a sociable at the same place on Thursday night.

At the Institute to-day when the gentlemen were requested to leave the hall, a placard was displayed on the door of the board room, reading as follows: "During the sessions of the Female Masonic Lodge, a meeting of the gentlemen of the Institute on important private business will be held in this room. No Ladies Admitted." The ladies as they passed stopped to read the placard with much interest, and exhibited great curiosity to know the object of the meeting, but it was not divulged.

SORGHUM WORKS.—It was stated in the GAZETTE on Thursday that under a resolution of the City Council, Mayor Downham and a committee of council would in a few days wait upon the Commissioner of Agriculture to urge the claims of Alexandria as one of the points for the location of the experimental works for improvement in the production of sugar. The Alexandria Star, in reference to the matter, says:

"It is understood that an effort will be made to put into use some of the large buildings on the river side now unused—Wheat's Mill, on Queen street dock, or the Pioneer Mills, at Duke street dock—as sugar works to develop the process from sorghum. The Commissioner of Agriculture is understood to be disposed to assist a proper establishment to the extent of \$25,000. The sugar business was long one of the leading industries of Alexandria. Crude sugar was brought here to be refined from New Orleans and the West Indies in exchange for cargoes of flour and tobacco. Many of Alexandria's young men were carried to New Orleans by this traffic and became prosperous merchants there, and several of the largest houses in town, now converted into dwellings, were built and long used as sugar refineries."

A CREDITABLE PIECE OF WORK.—The Wheeling (W. Va.) *Intelligencer*, referring to the reopening of the Hempfield Division of the Baltimore and Ohio Railroad, so badly damaged by the flood one week ago, says: "The rebuilding of the eleven miles of this division being in many places entirely obliterated, is one of the most creditable pieces of railroad work ever done in this country. As many men as could be worked to advantage were kept busy day and night at both ends of the damaged sections till traffic could be resumed. To Capt. Wm. Clements, the general manager, and Major Hunter Johnson, superintendent of construction, who in person directed the movements of the army of men employed, much credit is due."

[Major Johnson is a brother of Mr. John M. Johnson of this city and is an engineer of acknowledged ability.]

ANOTHER CHARTER.—A charter of a mining corporation under the name of the Old Dominion Stone Company, granted by Judge Keith, was yesterday received in the office of the Secretary of the Commonwealth at Richmond for record. The purposes of the company are mining, quarrying, and preparing stone, minerals, and other materials for architecture &c. The capital stock is not to be less than \$5,000 nor more than \$500,000, divided into shares of the par value of \$100 each. The amount of real estate to be held at any one time shall not exceed 10,000 acres, and the principal offices of the company shall be located at Clifton, in the county of Fairfax. The officers are: D. L. Evans, President; William Guier, vice president; Z. D. Evans, Jr., secretary; Richard Gray, treasurer, of Philadelphia, Pa.; and George W. Hunter, of Alexandria.

THE WOUNDED.—The condition of those at Charlottesville who were wounded in the recent railroad wreck, near Orange, has improved very much during the past week, and their chances of recovery in every case are considered favorable. All the wounded express themselves as highly pleased with the kind treatment and attention they have received both from the citizens and the railway authorities. A correspondent writes: "I learn upon good authority that the officials of the Midland road have informed the wounded that they do not intend to go into any legal proceedings, but will pay them whatever damages they may claim, provided their demands are in any way reasonable."

POLICE REPORT.—Last night was mild and cloudy until about 11 o'clock, when it became clear.

The Mayor this morning disposed of the following cases:

Robert Webb, colored, arrested on suspicion of being engaged in the recent robberies, was held for further examination.

THE STEAMER VIRGINIA.—About one hundred persons gathered on Lannon's wharf at noon to-day, to attend the sale of the ferry steamer Virginia, advertised in the GAZETTE to take place there by Messrs. Green & Wise auctioneers. The first bid received was for \$200 and after some slow bidding the steamer was knocked down to the owners, for \$350.

PILGRIMAGE TO MOUNT VERNON.—We call special attention to the Masonic pilgrimage to Mount Vernon on the 6th of August next, a notice of which appears elsewhere in these columns. The occasion promises to be a delightful one, and gives to others, as well as to the Masons, a fine opportunity to visit Mt. Vernon.

PERSONAL.—Mr. Edmund Burke is confined to his room in Washington with a severe attack of neuralgia.

Mr. Homer Nourse, of Roanoke, spent yesterday with his parents in this city.

Mrs. Col. R. E. Withers and daughter, Miss Willie, and niece, Miss Royal, have arrived at San Francisco from Hong Kong, and will be in Virginia next week.

For the Relief and Cure of the inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to prescribe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases are on record of radical cures of chronic catarrh and hay fever after all other modes of treatment have proved of no avail.
